RESTRICTIONS **ALL REMOVED**

Proclamation Issued Last Night Places United States in Neutral Position as to Contestants

(By Associated Press.) Washington, Feb. 3.—President Wilson by an executive order dated today and made public at the White House tonight, removed all restrictions against the exportation of muni-tions of war into Mexico from the United States, placing the contending Mexican elements on a basis of equality with respect to the purchase of arms and supplies in this country. The executive order emphasized that it was the desire of the United States to be in the same position of neu-trality toward the contending fac-tions in Mexico as were the other

powers.
The text of the proclamation fol-

"WHEREAS, by a proclamation of the Pre-ident, issued on March 14, 1912, under a joint resolution of congress approved by the President on the same day, it was declared that there existed in Mexico conditions of domestic violence which were promoted by the use of arms or munitions or war procured by the United States, and "WHEREAM, by the joint resolution above mentioned, it whereupon be

nitions of war to Mexico except un-der such limitations and exceptions as the President should prescribe; "Now, therefore, I, Woodrow Wil-son, President of the United States of America, hereby declare and pro-claim that as the conditions on which

the proclamation of March 14, 1912, was based, have essentially changed and, as it is desirable to place the Unifert States, with reference to the exportation of arms or munitions of war to Mexico, in the same position as other powers, the said appealance

war to Mexico, in the same position as other powers, the said proclamation is hereby revoked."

The President's Attitude.

The administration view-point on the action taken today, as gathered from those familiar with the President's attitude, may be summed up as follows:

"No one cuiside Mexico can now accommodal ber affairs. The with-drawal of all moral or material support from without is the indispensable first step to a solution from within. From many sources which it seems trustworthy, the government of the United States has received information which convinces it that there is point prospect of peace of security of property and of an early payment of foreign obligations if Mex-ico is left to the forces now reckonir with one another there, than there would be if anything like a mere change of personnel were effected at Mexico City.

at Mexico City.

"There are no influences at Mexico City that can be counted on to do anything more than to perpetuate and strengthen the soldsh oligarchical and military interests which, it is clear, the rest of the country can be made to endure only by constant warfare and a pittiess harrying of the north. The President is so fully convinced of this that after months of the most careful study of the situation at close range, he no longer feels justified in maintaining an irregular position as regards the convending parties in the matter of neutrality.

To Remove Inhibition.

CHICAGO VENT Distinguished Doctor Discuss Radium Cure for Cancerous Growths,

(By Associated Press.) Pittsburgh, Pa., Feb. 3.—A warning against blind faith in the cure of ing against blind faith in the cure of cancer by radium was voiced here tonight by Dr. Edward Reyaolds of Boston at a public educational meeting of the American Society for the Control of Cancer in memorial hall.

Dr. Reynolds, who is vice president for New England of the American society, stated that as yet there is no lyidence that radium had cured one advanced case of cancer. According to his view, the radium treatment of cancer is, up to the present time a cancer is, up to the present time, a natter of experiment, and successful results have been obtained chiefly in the treatment of external cancer par-

ticularly of the skin.

The first principle in the treatment of caller, Dr. Reynolds said, is the extreme danger of delay, and thus ar a thoroughly qualified operation seems to hold out the only hope for

the inhibition on the exportation of arms and ammunition to Mexico from he United States. Settlement by civil war carried to its bitter conclusion is a terrible thing, but it must come now whether we wish it or not, unless some outside power is to undertake o sweep Mexico with its armed force a from end to end, which would be the mere beginning of a still more difficult problem.

"By removing the labibition on the exportation of arms and ammunition into Mexico, the government of the Julied States puts itself and intends to put itself in the same position as other nations, whose subjects all along have been at liberty to deal as they pleased with Mexico. The gov-ernment of the United States deems it essential to the settlement of he To Remove Inhibition.

SENATORS DEBATE EXCLISION

Alabama Governor's Power of Appointment Causes Divergence of Opinion.

(By Associated Press.)
Washington, Feb. 3.—Prolonged debate over the right of Frank P. Glass to a reat in the senate upon his oppeintment from the governor of Alabama, developed in the senate today when the elections' committee recolu-tion against accepting his commission was taken up. 'A vote probably will be reached tomerrow.

Senators Wash, Thempson, Pomer-ene and Reed, all members of the committee on privileges and elections, urged against seating Mr. Glass. In support of his claim, Senators Rob-ertson, Williams, Bradley, Mark Smith and Bankhead spoke, contendng that the senate should accept the interpretation of Alabama officials of their own lays, just as had been done in the rent ng of Senator Blair Lee of Maryland.

The committee members insisted that the new constitutional method of electing senators by direct election could not be set aside to meet the convenience of any State.
